

Saurabh Kumar

Java Backend Developer

kumarsaurabhsingh475@gmail.com | [LinkedIn](#) | +91 79922 12983

Career Objective

To work as a Sr. Java Backend Developer in an organization where I can utilize my existing skills, knowledge and develop new skills to contribute in the accomplishment of an organization.

Profile Summary

Java Backend Developer with 2+ years of experience designing and building scalable, high-performance backend systems using Java (8/11/21), Spring Boot, Spring Security, REST APIs, GraphQL, and SQL databases (MySQL, PostgreSQL). Skilled in microservices architecture, RBAC-based authentication & authorization, API design, and performance optimization. Hands-on experience with Agile/Scrum methodologies, version control (Git), and delivering reliable, production-grade SaaS applications.

Experience

Drabito Technologies Pvt. Ltd.

Software Developer

Jan 2024 – Present

Noida, India

Projects

WorkED | Cradle-to-Career EdTech & Workforce Innovation

Aug 2024 – Present

Environment: Java 11 & Angular 8

[About-WorkED](#)

- Developed Classroom module features including attendance tracking, grade marking, badge awarding end-to-end.
- Designed and implemented user registration and onboarding using RESTful APIs, improving system flexibility across modules
- Developed and delivered a unique student transfer feature between groups and program events, customized for client-specific workflows and highly appreciated by stakeholders.
- Resolved critical bugs and optimized database queries, improving landing page performance by 80% for various user roles.

Zep 360 | All-in-One OS for Solar & EPC Businesses

Feb 2026 – Present

Environment: Java 17 & React

- Engineered and optimized RESTful APIs, improving response time by up to 90% and ensuring scalable performance across modules.
- Designed and developed a comprehensive Service Module including work order management, user assignment, and quotation workflows, streamlining end-to-end service operations.

WorkED Operations Hub | Centralized Support & Workflow Automation Platform

Feb 2025 – Present

Environment: Java 21 & Angular 19

- Developed the portal end-to-end to automate internal operations and reduce manual support dependencies across departments.
- Orchestrated a custom Workflow execution engine integrated with Quartz-Scheduler to schedule and automate email and Twilio SMS campaigns with time precision.
- Designed and developed dynamic dashboards using integrated GraphQL and RESTful APIs to support real-time data operations.
- Implemented a robust Role-Based Access Control system to manage permissions across various user types and operational levels.

Inn4Smart | SaaS-Based Platform for Smart Society & Energy Management

Jan 2024 – Jul 2024

Environment: Java 17 & React & React Native

- Designed and implemented a multi-wallet architecture to track balances for electricity usage and society management services
- Developed cron jobs to automate low-balance alerts via SMS and email, ensuring proactive top-ups and uninterrupted service
- Integrated QR code and OTP-based gate pass system for secure visitor and guest entry, enhancing society-level access control

Skills

- Programming Languages:** Java (8/11/21/25), SQL, JavaScript, Angular(basic), HTML, CSS
- Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Spring GraphQL, Spring AI, RESTful API and GraphQL API Development, Junit, Mockito
- Architecture & Concepts:** Object-Oriented Programming (OOP), Microservices Architecture, Agile/Scrum Methodologies
- Databases & Tools:** MySQL, PostgreSQL, Redis (caching & performance optimization using Spring Data Redis), Elasticsearch (full-text search & indexing using Spring Data Elasticsearch)
- Cloud Services (Application Level):** AWS (S3, SES, DynamoDB)
- Soft Skills:** Team Collaboration, Client Communication, Mentorship
- Tools & Platforms:** IntelliJ IDEA, VS Code, Postman, Git (GitHub/GitLab/BitBucket), Maven, Gradle, Jira, Swagger

Achievements & Recognitions

- Recognized twice by the client for delivering high-quality features in the WorkED Operations Hub.
- Received appreciation from senior leadership for streamlining backend workflows and reducing issue resolution time across key modules.

Academics

Master of Computer Applications

2018 - 2021

Noida Institute of Engineering and Technologies

6.7 CGPA
